

Alta Jamison CV

I am a Highveld Boer girl, born and bred in Ermelo in the old South-Eastern Transvaal. In an effort to improve my broken English, I later married Kevin Jamison, a true rooinek Englishman born in Zambia. My highest qualification – M Sc Human Genetics – I obtained at the University of Pretoria. After twenty years, during which time I worked as a medical scientist, university lecturer and online teaching consultant, I bid the professional world farewell to devote my full attention to our two sons. I enjoy reading, gardening, camping, bird watching and crossword puzzles, but genealogy and family history remain my biggest passions.
